Applications for building and demolition permits shall be forwarded by the Building Inspector to the HPC within seven (7) days following receipt of the application. A building or demolition

permit shall not be issued until a Certificate of Appropriateness has been issued by the HPC. Any applicant may request a meeting with the HPC before the application is reviewed by the HPC or during the review of the application. Application for review of construction, alteration, demolition, or removal not requiring a building permit for which a Certificate of Appropriateness is required shall be made on a form prepared by the HPC and available at the Office of the City Clerk. The HPC shall consider the completed application at its next regular meeting.

Stop Work Order. Whenever the HPC has reason to believe that an action for which a Certificate of Appropriateness is required has been initiated, or is about to be initiated, or that a violation of the conditions of a permit has occurred, it shall request that the Building Inspector make every reasonable effort to contact the owners, occupants, contractor or subcontractor and inform them of proper procedures. If the HPC determines that a stop work order is necessary to halt an action, it shall request the Building Inspector to send a copy of the stop work order by certified mail return receipt requested to the owners, occupants, contractors and subcontractors, and notify them of the process of applying for a Certificate of Appropriateness. A copy of the proper application form shall be included in the notice. If necessary, a second or subsequent stop work order may be issued for the same project.

Section VI: Determination by the Historic Preservation Commission

The HPC shall review the application for a building or demolition permit or for a Certificate of Appropriateness and issue or deny the permit with fourteen (14) days of receipt of the application. Written notice of the approval or denial of the application for a Certificate of Appropriateness shall be provided the applicant and the Building Inspector within seven (7) days following the determination and shall be accompanied by a Certificate of Appropriateness in the case of an approval.

A Certificate of Appropriateness shall become void unless construction is commenced within six months of date of issuance. Certificates of Appropriateness shall be issued for a period of eighteen months and are renewable. If the project is not completed according to the guidelines provided in the Certificate of Appropriateness, the project shall be deemed in violation of this ordinance.

Denial of a Certificate of Appropriateness. A denial of a Certificate of Appropriateness shall be accompanied by a statement of the reasons for the denial. The HPC shall make recommendations to the applicant concerning changes, if any, in the proposed action that would cause the HPC to reconsider its denial and shall confer with the applicant and attempt to resolve as quickly as possible the differences between the owner and the HPC. The applicant may resubmit an amended application or reapply for a building or demolition permit that takes into consideration the recommendation of the HPC.

Section VII: Review of Public Improvement and Land Acquisition Projects

Public improvement and land acquisition projects by the City of Pleasant Hill or any of its departments or agencies shall be reviewed by the HPC in the following manner:

The Department of Public Works shall send a completed preliminary design for a public improvement project to the HPC simultaneously with its

submission to the City Council for approval. The HPC shall have at least thirty (30) days to complete its review and report to the City Council, except when the Department of Public Works, if necessary to accelerate the design review process, may specify a time less than thirty (30) days within which the HPC shall complete its review and report to the Council.

2. The HPC shall review and comment upon any proposed acquisition of a Landmark or of land or buildings within a Historic District by the City of Pleasant Hill or any of its agencies or departments. The City Council or the Department of Public Works shall, at the earliest possible date that will not interfere with acquisition negotiations, send the HPC information concerning the location, size, purchase price, current use, and proposed use of the land or building to be acquired, and specify the date by which the HPC shall report to the City Council.
3. The HPC shall review the public improvement or land acquisition projects to determine its effect upon the historic, archaeological or architectural character of the Landmark or Historic District and report to the City Council within any time specified by the City Council or Planning Department but not to exceed forty-five (45) days. The report by the HPC shall include any recommendations for changes to the preliminary design or land acquisition that will lessen or alleviate any adverse effect of the proposed project upon the historic, archaeological or architectural character of the Landmark or Historic District. The City Council shall take no final action on the preliminary design or land acquisition until it has received and reviewed the report of the HPC.

Section VIII: Standards for Review

In considering an application for a building or demolition permit or for a Certificate of Appropriateness, the HPC shall be guided in principal by the Secretary of the Interior's Standards, as follows, in addition to any design guidelines in the ordinance designating the Landmark or Historic District. Applications, standards for review and design guidelines shall be available in the Office of the City Clerk for distribution to the public.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.
2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
3. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.
4. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.
5. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.
6. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall

not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

7. Significant archaeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.
8. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.
9. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Section IX: Design Guidelines

Design guidelines for applying the criteria for review of Certificates of Appropriateness shall, at a minimum, consider the following architectural criteria:

1. **Height** - The height of any proposed alteration or construction should be compatible with the style and character of the Landmark and with surrounding structures in a Historic District.
2. **Proportions of Windows and Doors** - The proportions and relationships between doors and windows should be compatible with the architectural style and character of the Landmark and with surrounding structures within a Historic District.

All testimony, objections thereto and rulings at such public hearing shall be taken down by a reporter employed by the city for that purpose, or, if electronic tape recording equipment is available, by such electronic means. The HPC may solicit expert testimony or require that the applicant for a certificate of economic hardship make submissions concerning any or all of the following information before it makes a determination on the application.

Ordinary Maintenance Exclusion. Nothing in the section shall be construed to prevent the ordinary maintenance or repair of any exterior elements of any building or structure described in Section I.

Definition of Ordinary Maintenance. Any work, for which a building permit is not required by law, where the purpose and effect of such work is to correct any deterioration or decay of or damage to a structure or any part thereof and to restore the same, as nearly as may be practicable, to its condition prior to the occurrence of such deterioration, decay or damage.

Minimum Maintenance Requirement. All buildings and structures designated by city ordinance as "H" shall be preserved against decay and deterioration and free from certain structural defects in the following manner, by the owner thereof or such other person or persons who may have the legal custody and control thereof shall repair such building if it is found to have any of the following defects:

1. The deterioration of exterior walls or other vertical supports;
2. The deterioration of roofs or other horizontal members;

4. The deterioration or crumbling of plasters or mortar;

7. The lack of maintenance of surrounding environment, e.g., fences, gates, sidewalks, steps, signs, accessory structures, and landscaping;
8. The deterioration of any feature so as to create or permit the creation of any hazardous or unsafe condition or conditions.

If minimum maintenance is not being maintained, the owner of the property or other person having legal custody thereof shall be notified by the Building Inspector. The notice shall be by certified mail and shall specify each item in the property or Landmark that fails to meet minimum maintenance requirements. The owner or other person having legal custody of the property shall have thirty (30) days from the receipt of notice to comply with the minimum maintenance requirements. If after the original thirty (30) day period or any extension granted by the Building Inspector the owner or person having legal custody of the property should fail to meet the minimum maintenance requirements, the owner or person having legal custody of the property shall be in violation of this section and punished in accordance with Section 14-9 of the City of Pleasant Hill's Code of Ordinances.

The HPC may review these applications using any format which it deems appropriate provided, however, that the applicant shall be notified of the time and place of such review and shall be given the opportunity to appear and be heard. Within fifteen (15) days after receipt of said application, the HPC shall forward its comments to the Planning Department for presentation to the Planning and Zoning Commission for their consideration in reviewing the application.

Section XIII: Appeals

If the HPC denies an application for a Certificate of Appropriateness, the HPC shall work with the applicant to arrive at a mutually satisfactory alternative to the proposed activities. If agreement cannot be reached within six months, the applicant may file with the City Clerk a written appeal to the Board of Adjustment. In acting upon the appeal, the Board may grant a variance from the strict interpretation of this ordinance when such will not materially affect the health or safety of the applicant and general public.

Section XIV: Public Safety Exclusion

None of the provisions of this ordinance shall be construed to prevent any measures of construction, alteration, or demolition necessary to correct or abate the unsafe or dangerous condition of any structure, other feature or part thereof, where such condition has been declared unsafe or dangerous by the Building Inspector, and where the proposed measures have been declared necessary, by such department or departments, to correct the said condition; provided, however, that only such work as is reasonably necessary to correct the unsafe or dangerous condition may be performed pursuant to this section. In the event any structure or other feature shall be damaged by fire or other calamity, or by Act of God or by the public enemy, to such an extent that in the opinion of the aforesaid department or departments it cannot reasonably be repaired and restored, it may be removed in conformity with normal permit procedures and applicable laws.

Section XV: Fees and Penalties

The Board shall establish an appropriate system of processing fees for the review of nominations and Certificates of Appropriateness.

It shall be unlawful for any person to undertake or cause an alteration, construction, demolition or removal of any nominated or designated Landmark or structure within a nominated or designated Historic District without a Certificate of Appropriateness.
