Exhibit 240.33: Sight Triangle

TEMPORARY SIGN PLACEMENT

Temporary signs such as yard/garage sale, local community activities, etc. are allowed to be placed along city streets if they are placed in compliance with city regulations. You may not be aware that signs placed in a right-of-way along both city streets and state highways are in violation of city regulations. As a rule of thumb, as you are placing your temporary signs along Highway 7 and 58, place your signs behind the power poles to keep in compliance with regulations. Sign placement must also take into consideration the site triangle at intersections. The site triangle is, at a minimum, 25 feet in each direction from the corner of the intersection. (see diagram) This maintains that the line of sight for vehicle traffic remains clear and safe. Temporary signs in violation of regulations may be removed by city staff at any time. If you have any questions regarding the placement of temporary signs, please feel free to contact our Development Services Department at (816) 540-3135.

SNOW REMOVAL

The Public Works Department needs your help to ensure streets are cleaned as soon and as efficiently as possible.

If possible, we ask that residents avoid parking on streets before or during a snow event. If it is unavoidable, we ask:

BEFORE OR DURING STORM: park vehicles on the evenly addressed side of the streets (where allowed)

AFTER STORM: please move all cars to the odd addressed side of the street to allow plows to clear the entire street.

Please visit our [website](#) for more information.
